

FIT SYSTEM

Solutions de bureaux acoustiques modulaires recouvertes de textile

LE SYSTÈME FIT

Les panneaux du système FIT sont des éléments modulables fins et élégants dotés d'un système de fixation invisible et très pratique. Ce sont des monolithes simples et combinables, dont les solides structures en aluminium et bois sont entièrement recouvertes du tissu. Ils constituent la collection idéale pour composer toutes les situations d'espace de travail (cloisons, bureaux, salles de réunion et zones de repos,...) et créer un environnement harmonieux et avec une très haute performance acoustique. La collection intègre par ailleurs les FIT sofas, flexibles et confortables, conçus par le designer Alain Berteau.

INFORMATION TECHNIQUE

Éléments de partition et de mobilier. Structure interne en composé de profils d'aluminium extrudé et de panneaux de particules de bois. Les structures des faces latérales sont dotés d'inserts permettant les connexions latérales des modules entre eux, par des tiges usinées et serties. La structure de base est équipée d'inserts cylindrique M8 avec patins de réglages ajustables. Les éléments FIT sont remplis de panneaux de mousses acoustiques.

Usage :	Intérieur
Épaisseur :	62mm
Connexions :	2 tiges usinées et serties assemblent les éléments mécaniquement.
Configurations :	Selon les versions, connexion des éléments à 180°, 90°, en «L», «T» ou en croix.
Garantie :	2 ans sur les défauts de production, en usage normal d'environnement de bureau.
Durabilité :	5 ans
Poids :	Selon les versions, consulter la liste des références.
Emballage :	Carton multicouche avec renforts et bâche plastique thermo-rétractable.
Eco-contribution:	Famille bois et métal.
Absorption :	$\alpha_w = 1.00$

COEFFICIENT D'ABSORPTION

Certifié Classe « A » selon les normes ISO 354 et ISO 11654
